

Drive the Future of Energy Innovation through ARPA-E's

# INTEREST Internship

Are you an undergraduate STEM major at a Minority Serving Institution (MSI) with an entrepreneurial spirit and a passion for energy innovation? ARPA-E's INTEREST internship—Inspiring New Transformations in Energy Research by Emerging Scientists and Technologies—offers a unique opportunity to dive into cutting-edge energy research while learning how to turn breakthrough technologies into market-ready solutions.

## Why join?

### Innovate and Lead:

Step into the entrepreneurial side of energy innovation and learn what it takes to transform promising ideas into impactful technologies.

### Experience and Learn:

Work alongside top experts on cutting-edge projects, gaining technical skills and business insights to drive innovation.

### Network and Grow:

Strengthen your network and build valuable connections with industry leaders, propelling your future career prospects.

## Internship Highlights:

### Financial Support:

Receive a competitive stipend, housing support, and round-trip airfare to your host site.

### Impactful Projects:

Collaborate on ARPA-E funded projects at leading research institutions across the U.S.

### Variety of Opportunities:

Each internship spans a wide range of technical areas and geographic locations.

## Eligibility Criteria:

- Be a U.S. Citizen, U.S. National, or Lawful Permanent Resident
- Enrolled full-time as a rising junior or senior pursuing an undergraduate STEM major at an accredited Minority Serving Institution
- Minimum GPA of 3.5 on a 4.0 scale
- At least 18 years old
