

Contract Announcement

Title: Environmental Education Consultant

Timeframe: June/July 2016 – September 2016

Compensation: \$5,000

Description

The Environmental Education Consultant will play an integral role for current and future educational programs at Cottonwood Canyons Foundation. This individual will work directly with the Executive Director and consult with key board and staff members.

The purpose of this contract is to review, analyze and modify existing education programs, identify curriculum to add to our offerings and to help build a calendared delivery model for year round program utilization. CCF is looking for a self-starter with up to date curriculum building experience in the environmental education field. This individual should have experience with existing and changing K-12 state standards. An ideal candidate will come with a proven track record of creating successful education programs as well as possess experience with on-the-ground program implementation. This individual should be aware of local resources for existing educational curriculum in order to identify programs and partnerships that can be utilized to accomplish the goals of the organization.

Qualifications

A background in environmental education is required; master's degree preferred. A demonstrable history of successful program and curriculum development. Strong communication and interpersonal skills are a must. An ability to review programs in various outdoor settings is necessary.

To apply

Please submit a letter of interest and resume with references to Serena Anderson, Executive Director at serena@cottonwoodcanyons.org.
