

Utah Army National Guard Internship Announcement

Title:	GIS Intern
Work Location:	Draper National Guard Headquarters
Pay Rate:	\$13-\$15/hour, 20-40 Hours Per Week
Closing Date:	Open until filled
Employment Period:	Late March – October, with the possibility of extension dependent upon funding
Qualifications:	One or more GIS specific courses and currently seeking a Geography or GIS Degree

Utah National Guard (ERM):

Utah National Guard (UTNG) manages thousands of acres across the state as stewards of both Federal and state lands. UTNG is responsible for the conservation and management of natural environments of training lands, seeking to balance present training needs and long-term site sustainability within requirements of public land laws.

Summary:

Under the direction of the GIS Manager and GIS Analyst this position will collaborate with Environmental Resource Management program managers and staff to perform GIS and other associated functions.

Possible Duties and Responsibilities:

- Set up, analyze, and post process field collection data
- Utilization of a Global Position System (GPS) to survey environmental sites
- Implement ArcGIS Online Standards
- Analyze and conduct analysis on LIDAR Imagery
- Assist with the preparation of maps and graphics
